

Autumn Term 2

Year 3 Creative Homework

This half term we are going to be learning all about Volcanoes. This is your chance to create something at home that represents our topic for this half term. Remember this is optional, but it is lovely to see lots of different individual creations. We know how much you all love sharing your work with the class. We have included some ideas that you could work with.

Use some scrap materials to make a volcano collage.

Write an acrostic poem using the letters from the word VOLCANO.

Paint or draw a picture of an erupting volcano for our class display.

Draw a map showing where volcanoes are around the world.

Tell a story about a day a volcano erupted. You could write this using your best handwriting.

You might have some more fabulous ideas!

Remember to upload your creations to Seesaw so that we can share them with the class. We are looking forward to seeing your creations for our new topic.
