Remote Education Information

For pupils who have received a positive

COVID result

September 2021

The remote curriculum: what is taught to pupils at home?

Children are provided with a broad and balanced curriculum which is as much in line with our whole school curriculum as possible. This is appropriately sequenced so that knowledge and skills are built incrementally. We teach the same curriculum remotely as we do in school wherever possible and appropriate. Where it is not possible to replicate normal classroom provision, activities and tasks are modified accordingly.

How long can I expect work set by the school to take my child each day?

We expect that remote education will take pupils broadly the following number of hours each day:

Key Stage 1	3 hours a day on average across the cohort, with less for younger children
Key Stage 2	4 hours a day

The remote education we provide mirrors the skills, knowledge and concepts that we are delivering in school. We have ensured that the lessons, activities and work for home learning are the same as the lessons, activities and work in school, at times it may need to be adapted.

Once a positive result has been reported, teachers will upload work the following afternoon via Seesaw.

How will my child be taught remotely?

The remote education provision differs from EYFS to KS1, from KS1 to KS2.

Daily tasks/activities may include written, audio or video explanations. Audios and videos may be recorded by a teacher but are not necessarily recorded by St Chad's teaching staff: e.g. video content from websites

such as Oak Academy or White Rose maths. The tasks may be accessed at times that suit each individual family's circumstances and fit in with the working day.

The children will be given a piece of Maths, English and Foundation Subject work (which reflects what would be happening in class) for each day. Alongside this, weekly spelling lists, accompanying practice handwriting sheets and daily reading will also be provided. Staff will send 5 days worth of work at a time via Seesaw.

If my child does not have digital or online access at home, how will you support them to access remote education?

We recognise that some pupils may not have suitable online access at home. We take the following approaches to support those pupils to access remote education:

- School will distribute school-owned laptops accompanied by a user agreement or contract if these are available for use.
- School will on request provide printed resources, such as textbooks and workbooks, to structure learning.

Seesaw can be accessed on a laptop or mobile device such as an iPad, tablet or mobile phone

How will we communicate with you if your child is off with a positive COVID result?

- Staff, parents and children should only communicate using channels of communication set up by the school. These include: school email, Parent App and Seesaw.

To be reviewed in line with Government changes and any changes to school circumstances.
